

Pleated Air Filter

EXTENDED MEDIA AREA
LOW RESISTANCE
HIGH EFFICIENCY

H.V.A.C.FILTER

ACTIFIL[®] AIR FILTER

ACTIFIL[®] PLEATED AIR FILTER

Actifil pleated air filter comes in 1", 2", and 4" nominal depths. With up to 5 times the media surface area, they have much longer service life and higher efficiency than glass fiber and other flat type panel filters. They can be used along, or as a prefilter to protect other higher efficiency filters.

4" DEPTH:

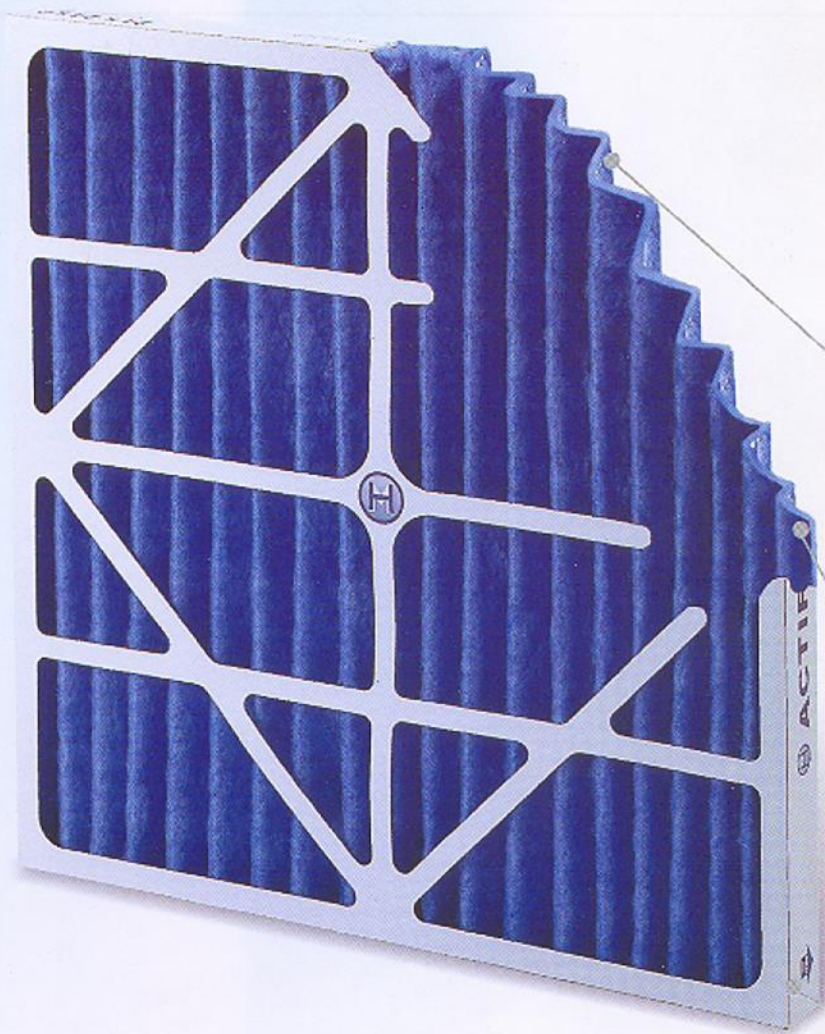

Contains 9 pleats per nominal foot. Initial resistance at 500 fpm shall not exceed 0.2 in w.g.

2" DEPTH:

Contains 10 pleats per nominal foot. Initial resistance at 500 fpm shall not exceed 0.25 in w.g.

1" DEPTH:

Contains 14 pleats per nominal foot. Initial resistance at 500 fpm shall not exceed 0.32 in w.g.

EFFICIENCY VS. PARTICLE DIARN
